

The housing association Birkebo – Renovation

In May 2011, Damgaard Engineering Consultants in collaboration with Paalsson Architects, Thora Architects and Andreas Bruun landscape architects won the housing office Danmark's tender for a parallel framework agreement on total consultancy sub-agreement 3 - The metropolitan area, Midt- og Vestsjælland and Bornholm. The framework agreement relates to total consultancy, including technical advice and assistance regarding selected construction cases up to the year 2015. Construction cases can be both new construction and renovation and are carried out in accordance with the Public Housing Act with public support.

In April 2012, under the above framework agreement, we won a mini tender as a total consultant for the renovation of the building Birkerød Parkvej, section 06 under the housing association Birkebo, which consists of 183 homes totaling 13,245 m².

The advisory task consists of clarifying the need for and conducting further necessary preliminary research in connection with qualification of the comprehensive plan application to the Rural Development Fund and performs general advice, cf. the framework agreement, in connection with the implementation of the renovation task itself.

The housing office Denmark is a general cooperative with 60 housing associations and associations as members. It is the members who own the company. The housing office Denmark also administers 44 external members, of which 13 municipalities 'and 2 regions' elderly housing and private rental properties. The housing office manages everything. 27,000 rental units from 8 branch offices across the country.

Execution: 2011 - 2015

Client: Boligkontoret Danmark
